

ALC-PLUS

SIERRAS MD ESPECIALES

Hojas circulares con puntas de mental duro realizadas con geometrías y ángulos de corte especiales, adecuados para aplicaciones particulares como recortes a medida y alto grado de acabado de la superficie de corte, utilizadas en sierras automáticas para el corte de perfiles de aluminio.

SPECIAL TCT CIRCULAR SAW BLADES

Tct circular saw blades realized with special geometries and cutting angles, suitable for particular applications as custom-made cuts and high level of cut surface finishing, useful on automatic sawing machines for structural aluminium cutting.
